Office Action Summary

Art Unit: 1712

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8 and 11-16 drawn to a compression molded doorskin made from SMC and cure catalyst that cures in less than 1 minute and process of making, classified in class 525, subclass 27.
- II. Claim 17, drawn to compression molded doorskin made from SMC, fiberglass and wollastonite, classified in class 523, subclass 521.

Inventions I and II are independent and distinct because the doorskin of Invention I does not require the fiberglass and wollastonite of Invention II and the doorskin of Invention I does not require the require the cure catalyst effective to cure the door skin in less than one minute of Invention I.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
